

# Our Party Will Be On The Beach Tonight

Jonathan Richman

Well, our party will be on the beach tonight  
Our party, let's have it on the beach tonight  
The waves are there  
The stars are there  
Our party, let's make it on the beach tonight

Our party will have water tonight  
Seawater and drinking water too  
We'll bring our [?] and the blankets down  
Our party will be on the beach tonight

Charcoal will cover everything tonight  
Ashes from the fire over everything  
Ashes from the fire  
Ashes from the fire will cover everything we're wearing at the party tonight

Our party will be on the beach tonight  
Our party will be on the beach tonight  
We'll spill things there  
We'll spill things there and we won't care  
And we won't care

We'll spill things there  
We'll spill things there  
And we won't care  
And we won't care
