

Divided

Jonathan Roy

Their dividing our hearts and minds
For some profit as were running blind
They tell you how to think what you need and there's no way around it
Manipulate with fear make you think that you can't live without it
Their dividing our hearts and minds

And there they go again with their games it's all pretend
Just to get you to fall in make you part of the problem
Here we go again I'll speak my mind until the end
I won't let myself fall in cause I'm not the problem

Fill my life up up with love
Don't participate in the drama
It's all messed up
Don't you tell me what to think what I need that there's no where around it
If we keep em out of mind, in time they'll no longer divide us

And there they go again with their games it's all pretend
Just to get you to fall in make you part of the problem
Here we go again I'll speak my mind until the end
I won't let myself fall in cause I'm not the problem

Cause I'm not the, cause I'm not the, cause I'm not the problem
Cause I'm not the, cause I'm not the, cause I'm not the problem

And there they go again with their games it's all pretend
Just to get you to fall in make you part of the problem
Here we go again I'll speak my mind until the end
I won't let myself fall in cause I'm not the problem
