

## Doubt - Interlude

**Jonathan Roy**

Doubt! It isn't your enemy, it's a sign you're stepping out of your comfort zone and reaching for something greater. Embrace it, own it, and let it fuel your growth. Most importantly, accept yourself fully. Your flaws, fears, and brilliance because self-acceptance is the foundation of true freedom. When you own your doubt, face your struggles, and embrace who you are, you become unstoppable. Welcome to Symphony Of Doubts.
