

If I fly away, my love  
She got to let you go  
I see you twice a year, and you're 6 houses down  
Not far from here  
You're my blood, now my biggest fear

If I fly away, my love  
Gotta wake up from this dream  
You've gone strong, been so long  
So proud of you  
A beautiful flower that has bloomed

Fly, baby  
Now think about you, that's what we waiting for  
Fly, baby  
You're not alone  
I'll be there to hold you, I'll never let you down  
So fly, baby  
Fly, baby, fly

Don't fly away too far  
I'm never leaving you again  
I'll stand tall, be a man  
Be a brother, hold your hand  
I was wrong, now I understand

So fly, baby  
Now think about you, that's what we waiting for  
Fly, baby  
You're not alone  
I'll be there to hold you, I'll never let you down  
So fly, baby  
Fly, baby, fly

In all of my life  
I've seen you cry  
Oh, no, no  
Oh, now I wonder  
I wonder how you left  
And I will be there  
I'll be there for you  
For you

Fly, baby  
Now think about you, that's what we waiting for  
Fly, baby  
You're not alone  
I'll be there to hold you, I'll never let you down  
So fly, baby  
Fly, baby  
Fly, baby, fly

Ooh, hoo  
Fly, baby, fly
