

Freeze Time

Jonathan Roy

(Okay)

When I go to sleep
I close my eyes, but I open a nest
Can't fall asleep
Those nasty beasts won't give me no rest

Clock wear, suitcase in the dark
Shipwreck, sun flecks skin is passed
Rolling in and rising up

Freeze time, it's getting late
I'll freeze time, I cannot wait
I feel whiplash blur
Lift up your dreams to the stars above

This is what she feels like

Freeze time

When I go to sleep
I close my eyes, but I'm turning red
I cannot sleep
Tsunami insecurity

It's the good stuff, the bad stuff all collide
Frustration, creation, gotta survive
Rolling in and rising up

I'll freeze time, it's getting late
Freeze time, I cannot wait
I feel whiplash blur
Lift up your dreams to the stars above

('Cause this is what she sounds like)

Freeze time

And this is what she feels like
Yeah

I'll freeze time, it's getting late
I'll freeze time, I cannot wait
I feel whiplash blur
Lift up your soul to the stars above

('Cause this is what she feels like)

This is what she feels like
'Cause this is what she sounds like
Freeze time
Freeze time
