

Good Things

Jonathan Roy

This is just an imaginary conversation I had with myself
Last night around 12 o'clock
I said, don't you call her and don't you make contact
Let it go that girl won't come back
So hard to listen to that
And just admit the truth
But she gone, get it through your head, it's only the first part
But she is gone and you will never guess
What is the worst part

It's when the good things happen to me
I use to call you up immediately
I got so many good things coming my way
But there is no one to call today
It's when the good things happen to me
I use to take your picture so you can see
And that's the first thing I use to do
And it's the worst thing there is about not being together with you
Together oh...

And this is just a next heart for my mind
It just keep spinning around all the time
Can't you make it stop?
Can't you make it stop?
I wanna know
But she is gone, get it through your head
It's only the first part
But she is gone
You will never guess what is the worst part

It's when the good things happen to me
I use to call you up immediately
I got so many good things coming my way
But there is no one to call today
It's when the good things happen to me
I use to take your picture so you can see
And that's the first thing I use to do
And it's the worst thing there is about not being together with you
Together
(Only when the good things)
Only when the good things
(Only when the good things)
Only when the good things
(Only when the good things)
Only when the good things

I got so many good things
I got no one to call
Good, good, good things
Yeah...

It's when the good things happen to me
I use to call you up immediately
I got so many good things coming my way
But there is no one to call today
It's when the good things happen to me
I use to take your picture so you can see

And that's the first thing I use to do
And that's worst thing there is about not being together with you
Only when the good things
Only when the good things
