

Stay In Bed And F*** (While The World Burns)

Jonathan Roy

I don't wanna get up
We can just stay in bed and fuck
We can just stay in bed and fuck
Let's just get higher
Pass me the lighter
While the world burns

All I need is a little bit of love
Not too complicated, baby
You give me that feeling I get
Now, why don't we? We can just turn it off
Don't need money, no cars, no Cuban cigars
Just you and me under these sheets

I don't wanna get up
We can just stay in bed and fuck
We can just stay in bed and fuck
Let's just get higher
Pass me the lighter
While the world burns
I don't wanna get up
We can just stay in bed and fuck
We can just stay in bed and fuck
Let's just get higher
Pass me the lighter
While the world burns

Night and day don't matter no more
'Cause we ain't gonna step out this bedroom door, no
Please, please, baby
No selfishness, no hate, no jealousy, no crimes
Not even war, no power, no time
No hashtags, no phones, politics, and thrones
Just give you that feeling I get

I don't wanna get up
We can just stay in bed and fuck
We can just stay in bed and fuck
Let's just get higher
Pass me the lighter
While the world burns
I don't wanna get up
We can just stay in bed and fuck
We can just stay in bed and fuck
Let's just get higher
Pass me the lighter
While the world burns

And all I need is you, baby
Don't need money, no cars, Cuban cigars
You and me under these sheets

I don't wanna get up
We can just stay in bed and fuck
Let's just get higher
Pass me the lighter
While the world burns

I don't wanna get up
We can just stay in bed and fuck
We can just stay in bed and fuck
Let's just get higher
Pass me the lighter
While the world burns
