

Walk Out On Me

Jonathan Roy

Even in the moment with tears in your eyes
I'm screaming at the top of my lungs
When you told me softly you don't think that I'm right
It's so sad to see what we've become

And we'll try even if it all goes wrong
I'm selfish and I'm stubborn and I'm broken, I'm a man
But you knew me all along

I can't be what what you want me to be
Cause I'm always just thinking of me
I will change if you wait for me please
I don't want you to walk out on me

Even if the stars in the sky don't align
Doesn't mean it's not meant to be
Love is crazy not simple it's deep
It's precious and it's hard to keep

And we'll try we even if it all goes wrong
I'm selfish and I'm stubborn and I'm broken, I'm a man
But you knew me all along

I can't be what what you want me to be
Cause I'm always just thinking of me
I will change if you wait for me please
I don't want you to walk out on me

I know you're turn up and broken inside
I should've listened and buried my pride
I don't wanna hurt you I won't leave a lie

I can't be what what you want me to be
Cause I'm always just thinking of me
I will change if you wait for me please
I don't want you to walk out on me

I can't be what what you want me to be
Cause I'm always just thinking of me
I will change if you wait for me please
I don't want you to walk out on me

Baby don't you walk out
I just wanna talk now
Don't want you to walk out on me
Even in the dark now
We can walk it all out
I'll change if you wait for me please
I don't want you to walk out on me
