Epiphany

Jonathan Thulin

Empty days, at a loss, but for what, what cause?
Lost my will, lost my soul, I'm out of control
I need to breathe and let you into me
I need to fight and claim my victory

I see the walls caving in
Hold on to the joy surging through me

Raise your hand if you wanna dance with me
Raise your voice if you wanna shout with me
I'm lost like a symphony
I need someone (Epiphany)
Raise your voice if you wanna sing with me
Raise your hand if you wanna clap with me
Hold me now, all that's left of me
I need someone (Epiphany)

Breathin' in, breathin' out, perfect in, no doubt
Like a child I am born, cut the umbilical
I need to call, need to get personal
I feel you and become, I'm physical

I see the walls caving in
Hold on to the joy surging through me

Raise your hand if you wanna dance with me
Raise your voice if you wanna shout with me
I'm lost like a symphony
I need someone (Epiphany)
Raise your voice if you wanna sing with me
Raise your hand if you wanna clap with me
Hold me now, all that's left of me
I need someone (Epiphany)

Turn the beat up
Turn the beat up
Turn the beat up some more
Turn the beat up
Turn the beat up
Turn the beat up some more
Turn the beat up
Turn the beat up
Turn the beat up some more
Turn the beat up
Turn the beat up
Turn the beat up some more (Some more)
Yeah, yeah

Raise your hand if you wanna dance with me
Raise your voice if you wanna shout with me
I'm lost like a symphony
I need someone (Epiphany)
Raise your voice if you wanna sing with me
Raise your hand if you wanna clap with me
Hold me now, all that's left of me
I need someone (Epiphany)
Raise your hand if you wanna dance with me

I'm lost like a symphony
I need someone (Epiphany)
Raise your voice if you wanna sing with me
Hold me now, all that's left of me
I need someone (Epiphany)
