

# Fountain

Jonathan Thulin

I count my days  
I feel them as they slowly slip away  
Unstoppable  
Like nothing I have felt before

I wanna turn back, turn back the hands of time  
Take back, take back the youth that's mine  
I can see it just beyond my reach  
It's calling me

Don't care how long it takes  
Don't care how far I go  
I'm longing for a taste  
For something spiritual  
I only wanna live  
Wanna feel young again  
What stops the clock that ticks  
The fountain  
Fountain, fountain, fountain

It's in my veins  
I feel the water flowing through my veins  
It's mystical  
But nothing I have ever felt before

I feel it in my veins
