

## OUTRO:WATCH ME

Jonathan Thulin

I never thought I was leaving  
But I was afraid for no reason  
I got myself through this season  
They tried to but they couldn't keep me  
Finally woke up without feeling nauseous  
I'm done with being so cautious  
Yeah, I'm alone in the cockpit  
But it's only up for this starship

Now I've let go of all of the baggage  
That's held me down to this mattress  
Cause I want something that will last me  
It's time to move on but lastly  
Yeah, I got some things to say  
They blocked me but I found a way  
This journey is starting today  
I can I will just watch me!...
