

# Lovestrong

Jonathan Wilson

Mystic music come and save me from my memories  
I was so alone this time  
Cosmic harmony  
Perfect harmony, the  
Mystic frees inside my mind

Hold on...  
Love... strong...  
Love... strong...

Just a while ago went up the road a piece  
Fanfare when you are born  
A ballad when you are released  
And all the while are the lyrics that you sang  
Every lifetime plays the song of every living thing

Hold on...  
Love... strong...  
Love... strong...

Now I'm hearing about your bourgeois life out on the beach  
Coyote'd chew off his own paw to get out of what you've tried to  
achieve, lady  
And all the while you could have laid here in my arms  
And all the while we shared this mystic in our hearts

Hold on...  
Love... strong...
