Oh I'm sorry babe
Order something Babe
When I'm with you
Whatever it is, stop it baby (you make me lose my mind)
That's real lady
Oh sorry, I was talking about something else
Whenever I see you babe
I'm always out of it

I'll take my usual babe
You know what I want
Don't avoid my eyes
Don't try to hide
You already know what I want
It's only you

You're so popular
There's so many around you
Whatever it is for you
They fight for their lives
I pity them
Cuz you only think I'm cute
You only smile
That pretty for me

You're my cocktail (You, you, you, you, you)
You're my cocktail (You, you, you, you, you)
'Cause you, your charms
I-I love you, I'm falling for them
'Cause you, your charms
I-I love you, I'm falling for them

You're my cocktail (You, you, you, you, you)

The panorama is spreading, it's extreme
I'm taking a sip of you
Right now
(I can't stop) one sip
(Without wings) I'm flying
What's in my hand isn't a glass

I wanna take you slowly (Slow slow)
I feel, you wanna take it slowly (Slow slow)
Take a deep breath and hold my hand
Don't be apart from me
I want you more than anyone else

You're so popular
There's so many around you
Whatever it is for you
They fight for their lives
I pity them
Cuz you only think I'm cute
You only smile
That pretty for me

You're my cocktail (You, you, you, you, you)
You're my cocktail (You, you, you, you, you)
'Cause you, your charms
I-I love you, I'm falling for them
'Cause you, your charms
I-I love you, I'm falling for them
You're my cocktail (You, you, you, you, you)

You can try
Filling yourself up
In my cup
But there's no end

You're my cocktail (You, you, you, you, you)
You're my cocktail (You, you, you, you, you)
'Cause you, your charms
I-I love you, I'm falling for them
