

## Let It Be Me

Joni Mitchell

Old Mister Wind - hear him howl  
Even the moon seems to scowl  
Even the skies seem to sympathize  
As they weep into  
Their leafy cryin' towel

I didn't sleep last night  
Room is gettin' light  
That old sun I see  
Just arisin' here for me  
Will be settin' someplace else  
For you tonight

You're a Rambler a rover  
You've been this wild world over  
All you ask of life is to be free  
When those boots I've been lickin'  
Feel a little more like stickin'  
Please let it be here and let it be me

Maybe if the day you left this town  
I'd acted more the lover less the clown  
Maybe if I'd cried those tears I'd learn to hide  
I'd be with you on that road you're fadin' down

You're a Rambler a rover  
You've been this wild world over  
All you ask of life is to be free  
When those boots I've been lickin'  
Feel a little more like stickin'  
Please let it be here and let it be me  
Please let it be here and let it be me
