

Attention

Jonny Craig

I should've gave you attention
Should've gave you attention
Paid you no mind, to what you're worth
And I would give up everything, everything if I could
In my life now, to make it work

Should've paid, should've paid (let you shine, let you shine)
(All I want in this life) (Let you shine let you shine)
(Should've paid, should've paid) (Oh please press rewind)

I should've paid more attention
Should've gave you attention
Paid you no mind, to what you're worth
And I would give up everything, everything if I could
In my life now, to make it work
Make it work
To make it work
Make it work
