

Dark Knights

Jonny Craig

Catch me on the dark knights
Cruising through the hillsides
Overlooking city lights
Pouring all that fine wine
Snorting like it's our last night
All of us feel real smooth
Ready to make some moves
And if I were you I'd stay out our way

Watch me walk through the front door
All eyes on me or the floor
Your man, he don't wanna see me
His whole life all he wants to be me
Let me take you on the ride of your life, white lines
Let me take you all the places I see in my mind
Hop inside the low ride
I can make the top slide
Let me clear what's on your mind
Midnight, driving 125

Catch me on the dark knights
Cruising through the hillsides
Overlooking city lights
Pouring all that fine wine
Snorting like it's our last night
All of us feel real smooth
Ready to make some moves
And if I were you I'd stay out our way

Catch me on the dark knights
Cruising through the hillsides
Overlooking city lights
Pouring all that fine wine
Snorting like it's our last night
All of us feel real smooth
Ready to make some moves
And if I were you I'd stay out our way
