

# Falling Down

Jonny Craig

Pick me up, pick me up back again  
I'm falling to the ground  
Through the hurt make it work all over  
Everyone comes around

Just when you think you had enough  
Give a little more  
I can take it all if you give me what you got  
Stretch me further out  
Tear me apart  
Has this gone too far?

Feels like I'm holding my breath  
Under the weight of it all  
Just keep your head to the sky  
Can we make it out alive?  
And reach for the phone

Sew me up  
Sew me back up again  
I've fallen apart  
Left a mark somewhere deep down within  
Pulling out my heart

And they said I give you up  
Give you everything you want  
And if you pull yourself apart  
And show me what you got

Yeah, I can pick you up  
To the way of the feelings  
Drink it down now  
Drink it down

And you feel anything  
No, darling, you won't feel anything

Feels like I'm holding my breath  
Under the weight of it all  
Just keep your head to the sky  
Can we make it out alive?  
And reach for the phone

We've all been down  
Down  
Falling down  
Can we rise above the ground  
Falling down

Pick me up, pick me up back again  
Pick me up, pick me up I can't get

Feels like I'm holding my breath  
Under the weight of it all  
Just keep your head to the sky  
Can we make it out alive?  
And reach for the phone

Falling down, down  
Falling down

Can we rise above the ground  
We're falling down
