

GOOSEBUMPS

Jonny Craig

Imma rip my eyes off
Thought of you is blinding
Wish I didn't find out
Fuckin' off my time and
Baby girl, I'm lying, I'm dying
I don't see the point in even trying to hide it
I don't wanna fight with you tonight
Keep it private
Feel like I'm on trial
I get online
It's all icy
They just wanna triple with my sidekick
Everyone's so grimey
Everybody lying, they got it to a science
Yeah

Pretty little thing, gimme gimme goosebumps
Put it in my veins
Baby girl, you're a nuisance
Its exclusive
It's that new love
Yeah
Shit is crucial
Think brighter than my future
One, I'm sick of staying awake every, every night
And I'm always alone
I'm sick of staying awake every, every night
And I'm always alone

Imma rip my eyes off
Thought of you is blinding
Wish I didn't find out
Fuckin' off my time and
Baby girl, I'm lying, I'm dying
I don't see the point in even trying to hide it
I don't wanna fight with you tonight
Keep it private
Feel like I'm on trial
I get online
It's all icy
They just wanna triple with my sidekick
Everyone's so grimey
Everybody lying, they got it to a science
Yeah

Cause of you I've been hurting for too long
Cause we've been in this mess cause you're too lost
I won't be playing anybodies games for too long
Got me running on my own

I know that you know what I'm feeling
So why don't you get right back with me
I know deep down you need me
So let's ride

Baby girl, I'm lying, I'm dying, dying
I don't see the point in even fucking trying

I don't want to fight, with you tonight
Keep your pride, I feel like I'm on trial, trial
They just want to chip away at my psyche, psyche
Everyone's so grimey, everybody lying
Got it to a science
Everyone's so grimey
The one...
