

Free your mind  
And let me take you into overdrive  
Not by the hour no, not overnight  
If you want in you'll be my ride or die, yeah

I am not opposed to letting everyone know it  
Baby you can let them try  
My hand's around your throat  
I'm never letting you choke  
Cause I keep the pressure on the sides

I'm double dipping  
Can't help but turn their heads they must be trippin'  
When they see me next to you, no sweat, we're drippin'  
You know they can't afford the drinks we're sippin'  
Let them keep slippin'

I'll part the ocean when you're coming through  
This kind of world is only built for two  
I want to share my entire reign with you  
House by the ocean baby you're my view

I am not opposed to letting everyone know it  
Baby you can let them try  
My hand's around your throat  
I'm never letting you choke  
Cause I keep the pressure on the sides

I'm double dipping  
Can't help but turn their heads they must be trippin'  
When they see me next to you, no sweat, we're drippin'  
You know they can't afford the drinks we're sippin'  
Let them keep slippin'
