

Never Back Down

Jonny Craig

Down
Down
Down
Down
Down
Down
Down

I'mma never back down
I'mma never back down
I'mma never back down

Can't nobody take me down
There's nothing nobody ever gave me
I came from the streets that made me
My hole life fighting's what saved me
I paid my dues now pay me
So welcome to the trenches
Will we survive?
We the fittest
It's do or die and yeah we live this
I'm the greatest you will ever witness

This fury started with a spark
A fire burning in the dark, yeah in the dark
I'll finish this before you start
You're bout to learn what it feels like to swim with sharks

I got this dark side
Born with the fight to survive
The best of the beast is alive
And you already know

I got this dark side
Born with the fight to survive
The best of the beast is alive
Don't want smoke

I'mma never back down
I will never back down
I will never back down
I will never back down

I made it out the mud
Now I'm out for blood
All that talking is enough
I'm turning my savage up
I'm always tapped in
Never tapped out
I came with the game plan mapped out
It's a packed house
I'mma cash out
When the bright lights come on, then I black out

You wouldn't survive where I came from, (you ain't ready)
You fight or die, I ain't gonna lie
You won't survive, (I was born ready)

You wouldn't survive where I came from
(And we going for the crown)
You fight or die
Ain't gonna lie, you won't survive

I got the dark side
Born with the fight to survive
The best of the beast is alive
And you already know

I got the dark side
Born with the fight to survive
The best of the beast is alive
Don't want smoke

I'mma never back down, (oh)
Can't let nobody take me down
I'mma never back down

Who will save you from my dark side
Save you from my dark side
Won't save you from myself
Who will save you from my dark side
Save you from my dark side
Save you from myself
Who will save you from my dark side
Save you from my dark side
Save me from myself

I'mma never back down
I'mma never back down
Stare in the face of danger
Can't nobody take me down
I'mma never back down
And I'mma take that crown
I'mma never back down
I'mma never back down, (yeah)

I got the dark side
Born with the fight to survive
The best of the beast is alive
And you already know

I got the dark side
Born with the fight to survive
The best of the beast is alive
Don't want smoke

I'mma never back down
Never back down
Down
Never back down
(Never back down)
And we going for the Crown
Never back down
You ain't ready

I'mma never back down!
