

Stand

Jonny Craig

Fall into your hands
Fall into my voice
Fall into your hands
Fall into my voice
Fall into your hands
Fall into my voice
Fall into your hands
Fall into my voice

Don't be scared
I'll be there, nowhere
Don't be scared
I'll be there, it's writing on the wall
Alright
Alright
Alright

Stand, stand behind me if you care
Stand behind me if you dare
Lie to keep you there
Stand, stand behind me if you dare
Stand behind me if you care
Lie to keep you there

Fall into your words
I'll let them speak for us
As long as you decide
My voice is where you'll land
Fall into your words
I'll let them speak for us
As long as you decide
My voice is where you'll land

And if you follow me this time
I'll show you what I am
If you follow me this time

Stand, stand behind me if you care
Stand behind me if you dare
Lie to keep you there
Stand, stand behind me if you dare
Stand behind me if you care
Lie to keep you there
Stand, stand behind me if you care
Stand behind me if you dare
Lie

I'll be

You love me at my worst
You love me at my worst
You love me till it hurts
So now you love me at my worst
You love me till it hurts
You love me at my worst

Stand, stand behind me if you care

Stand behind me if you dare
Lie to keep you there
Stand, stand behind me if you dare
Stand behind me if you care
Lie to keep you there

Lie to keep you there
Don't die before I give you my heart
Lie to keep you there
Don't die before I give you the fucking chance to go
My air
My air
My air
My air
My air
Just give me your
Just give me your heart
