

# The Ratchet Blackout

Jonny Craig

As she walks from the back to the front  
All eyes on her; While she leaves in a hurry  
We all know why

She's a star for the night  
Backstage is where she wants to live life  
The bus is a spotlight  
The bus is alive

All these morals, they're on pause  
All your conscience is blocked  
If we've only got one night  
Lets make it worth it

All these morals, they're on pause  
All your conscience is blocked  
If you've only got one night  
Make it worth it

You knew it wouldn't last forever  
You knew it from the start  
I leave another town  
with a trail of broken hearts

You knew it wouldn't last forever  
You knew it from the start  
I leave another town  
with a trail-

The door shuts; Her clothes start to shed  
Her breathing speeds up; As she goes down  
Her toes start to curl; Her back starts to arch  
I'll be yours tonight, tomorrow I'll be gone

All these morals, they're on pause  
All your conscience is blocked  
If we've only got one night  
Why don't we make it worth it?

All these morals, they're on pause  
Your conscience is blocked  
If we've only got one night  
Why don't you make it worth it?

This wouldn't last forever  
You knew it from the start  
I leave another town  
with a trail of broken hearts

This wouldn't last forever  
You knew it from the start  
I leave another town  
with a trail-

(If we only got one night (2x)  
Why don't we make it worth it?

If we only got one night  
If we only-  
If we only got one night  
Why don't we make it worth it)
