

# I've Got It All

Jonny Diaz

Striving, fighting  
My way to the top  
And I'm too scared to stop  
I'm trying, climbing  
This ladder that has no end

Pushing for comfort  
Need some relief  
Searching for something  
To give me some peace  
When all that I'm wanting  
All that I need  
Is already given to me

I've got more than  
The richest man that ever walked the earth  
A treasure any king would covet  
Worth much more than I imagine  
Peace like Jesus in the middle of the storm  
Blessings in my life I can't ignore  
Now I see all my worries seem so small  
I've got it all

Running, chasing  
After a dream that this world sold to me  
Exhausted, from all this  
When will it ever end

I've got more than  
The richest man that ever walked the earth  
A treasure any king would covet  
Worth much more than I imagine  
Peace like Jesus in the middle of the storm  
Blessings in my life I can't ignore  
Now I see all my worries seem so small

There's nothing greater than you, not silver or gold  
Nothing compares to the one who saved my soul

But I keep pushing for comfort  
Need some relief  
Searching for something  
To give me some peace  
When you're all that I'm wanting  
All that I need

I've got more than  
The richest man that ever walked the earth  
A treasure any king would covet  
Worth much more than I imagine  
Peace like Jesus in the middle of the storm  
Blessings in my life I can't ignore  
Now I see all my worries seem so small  
I've got it all...
