

## Starts With Love

Jonny Diaz

If you're gonna preach  
It's gotta be more  
Than what you say  
Something you can see  
It's gotta be living  
Gotta be breathing  
'Cause if you want to reach  
If you really wanna  
Be the change  
Nothing's gonna speak  
Nothing's gonna be as big  
As a little when you just obey

It starts with love  
Living with an open hand  
It starts with love  
Giving when you think you can't  
It looks like faith  
Moves like grace  
And it all begins above  
It starts with love

Maybe it'll hurt  
Maybe it'll cost you  
All you've got  
But everything it's worth  
You'll only find it  
When you're reminded that  
Someone else found you  
Lost in the dark  
And lifted you in their arms  
Well isn't that enough for  
You to be the one to  
Reach for somebody else

It starts with love  
Living with an open hand  
It starts with love  
Giving when you think you can't  
It looks like faith  
Moves like grace  
And it all begins above  
It starts with love, love  
It starts with love, love

If your heart's still beating  
Give it away, give it away  
The whole world needs it  
So give it away

It starts with love  
It starts with love

It starts with love  
Living with an open hand  
It starts with love  
Giving when you think you can't

It looks like faith  
Moves like grace  
And it all begins above  
It starts with love, love  
It starts with love, love

If your heart's still beating  
Give it away, give it away  
The whole world needs it  
So give it away  
If your heart's still beating  
Give it away
