Throwing back to cool places that they've been  
Seaside selfies and a summer tan, I want that  
Why can't that be me?

Rolling through the life like a VIP  
Living like it endless celebrity, I want that

I wanna be there  
'Cause everyday, it's a new highlight  
When you're living the postcard life  
I wanna be there

Am I the only one  
Wanna have to have time for all that fun  
Do the ever work of the always on vacation  
'Cause in my day to day  
Where there's mouths to feed and there's bills to pay  
While they're makin' it rain, I'm just tryin' to make it

I wanna be there  
'Cause everyday, it's a new highlight  
When you're living the postcard life  
I wanna be there  
I wanna be where  
I can finally live the dream  
Nowhere else that I wanna be  
I wanna be there

When I get home  
My kids come running down the hall  
They laugh and jump into my arms  
And I put down my phone  
Reminding me  
That I've got everything I need  
And there's no better life for me  
Than my own right here

I wanna be here  
'Cause everyday is a new highlight  
It might not be a postcard life  
But I wanna be here  
I wanna be here  
Yeah, I'm living my wildest dreams  
There's nowhere else that I wanna be  
I wanna be here

I wanna be here  
I'm living my dreams  
I wanna be here  
I'm living my dreams  
I want to be here
