

## Use Me Too

Jonny Diaz

A little boy faced a giant man  
With a few rocks and a sling in hand  
He wasn't ready, but he was willing  
He said a prayer and looked to the sky  
Wound it up and he let it fly  
No one could believe Goliath falling

It's amazing what You do  
Oh the world would never choose

The small, the weak, with ready, willing, and open hands  
That's who You seek to bring to life all Your biggest plans  
All that I have is more than enough for You  
Use me, use me too, too

Mary was just a small town girl  
When she had a child that would change the world  
Must have been so scared, but You were right there  
So no more listing the reasons why I am unqualified  
For You to use me, so come and use me

It's amazing what You do  
When we give it all to You

The small, the weak, with ready, willing, and open hands  
That's who You seek to bring to life all Your biggest plans  
All that I have is more than enough for You  
Use me, use me too, too  
Use me, use me too, too

I will go where You lead  
I will not be afraid  
You are all that I need  
You have called me by name [x2]

Use me too

The small, the weak, with ready, willing, and open hands  
That's who You seek to bring to life all Your biggest plans  
All that I have is more than enough for You  
Use me, use me too, too  
Use me, use me too, too  
Use me, use me too, too  
Use me, use me too, too
