

## Hide Your Love

Jonny Lang

Try every single day  
I know youre worth the wait  
Am i getting closer or further away  
Somewhere behind youre eyes  
I know my answer lies  
But you wont release it  
I wish you would try  
To open up and let me see inside

Down deep in your heart i want to be  
Down where you hide your love for me  
Cause ive got to go, ive got to be  
Let me inside down where  
You hide your love for me

Round and round we go, circles all i know  
Deeper and deeper, endless and slow  
Everywhere i turn the same old lesson learned  
Over and over i just get burned, so bring me

No, theres nothing you can say  
Thats ever gonna make me change  
Ill always feel this way

Down deep in your heart i want to be  
Down where you hide your love for me  
Cause ive got to go, ive got to be  
Down where you hide your love for me
