

# Into the Light

Jonny Lang

There's a whole world down beneath the crack  
Where they eat, breathe, sleep with the rats  
Day after day without seeing the sun  
Never had a taste of freedom

Under the street they cry, give us a sign  
We've gotta leave this dark world behind  
We need a fire, a light, hold back night  
We've gotta leave this dark world

And step into the light  
Into the light  
Into the light  
Into the light

Dark world has a ruler supreme  
He's the one they call the shape shift king  
They never see him, feel him pulling the strings  
No escaping 'cause he's holding the keys

Under the street they cry, give us a sign  
We've gotta leave this dark world behind  
We need the strength to fight, crack the sky  
We've gotta leave this dark world

And step into the light  
Into the light  
Into the light  
Into the light

Yeah, yeah  
Keep walking and walking  
Leave this dark world

And step into the light, yeah  
All you gotta do  
Into the light, yeah  
Into the light  
Just step into the light

Into the light  
Yeah, mmh  
Into the light
