Make It Move

Jonny Lang

Late in the evening it all come pouring in
It's a quiet lie but in my mind the sound is deafening
And it's all the regret, and it's all the shame
And it's all in my head, but it's stronger than any chain

The greatest lie I told myself was that it could not be done
Watching others take the prize when I should have been the one

You could waste your whole life
Waiting for that mountain to move
But it's waiting on you (Waiting on you)
It's waiting on you (Waiting on you)
It's waiting on you (Waiting on you)
You gotta make it move (Make it move)
Yeah! (Make it move)

I see you on your front porch judging all the rest
When just behind your front door your own house lies in a mess
And it's all the fear, and it's all the pain
And it's all the years washed down the drain

Long ago you dreamed about what's on the other side
Living so long in the foothills you've forgotten how to climb

You spent your whole life
Waiting for the mountain to move
But it's waiting on you (Waiting on you)
It's waiting on you (Waiting on you)
It's waiting on you (Waiting on you)
You gotta make it move (Make it move)
It's waiting on you (Waiting on you)
You gotta make it move (Make it move)
Yeah!

You could waste your whole life
Waiting for that mountain to move
But it's waiting on you (Waiting on you)
It's waiting on you (Waiting on you)
Yeah it's waiting (Waiting on you)
Yeah! (Waiting on you)
It's waiting on you (Waiting on you)
You gotta make it move (Make it move)
You gotta make it move (Make it move)
See, it's waiting on you (Waiting on you)
I'm telling you (Make it move)
You gotta make it move (Make it move)
It's up to you to make it move (Make it move)
You've got to make it move (Make it move)
Make it move...
