

# Angel

Jordan Adetunji

I know your always trying  
I know there's no denying  
It's my fault  
I know I thought but I was wrong

I ain't got the words but if I did I'd try to make you stay  
But I keep messing up I can't stand to look you in the face  
I know you feel way but I don't even wanna feel a way  
Now you really feel way I just really wanna say

Your my angel make me feel right your my angel  
But I don't feel right made me feel right  
But you still left couldn't my life stress too much for your mindset

Your my angel make me feel right your my angel  
But I don't feel right made me feel right  
But you still left couldn't my life stress too much for your mindset

I know you've been hurt before that's why your so damn Insecure  
But I'm not helping sometimes I'm so damn selfish  
Need sometime for my self and...  
Yeah... yeah she just went M.I.A too much hurt in her face too much love too much pain yeah...  
Ok I just wanna get it but I can't tell myself...  
And I! wish you all the best and all the happy endings  
And if I can't give you that then please will you take this message  
I won't!  
Waste your time no more I won't!  
Hold you back no more I won't!  
Tell no lies no more I promise I'll leave it all at the door

Your my angel make me feel right your my angel  
But I don't feel right made me feel right  
But you still left couldn't my life stress too much for your mindset

Your my angel make me feel right your my angel  
But I don't feel right made me feel right  
But you still left couldn't my life stress too much for your mindset
