Close to you from perfect timing  
No one else to be enlinded with I only want you  
We just keep on shining like lights lit up in diamonds

When you walking by I see all the mandem going silent  
They want your gold so them mandem keep on mining  
You say your mine so it's waste they even trying  
We stepping through and them paigons keep dividing

Now I feel close to you (yeah)  
Doing everything I'm suppose to do (yeah)
