

Take My Heart Out

Jordan Adetunji

Cause I know that I don't really feel myself no more
Cause I been on floor now
They try take my heart out

I know that I don't really feel myself no more
Cause I been on floor now they try take my heart out

I been on my grind like all the time now I'm used to it
Told her that I don't believe in love now so I ain't used to it
I don't really trust too many people don't get used to it
If I let you in don't break my trust cause there's a fuse to it

Had a lot of pain and it only got worse
All up in brain have to put myself
First playing with my name watch
You'll get yourself hurt
I don't feel thing put that on a damn shirt

Cause I don't feel a thing for these Internet gangstas talking on my name talk so much
I could thank ya money on my mind heading bank yeah all up in mind
But I ain't going back yeah

I been talking God he said please don't look away now
I gave you this gift and this whole earth is your play ground
Demons never get to you stay with me your safe now
And if you lose your way run it back and faith now

I been on my grind like all the time now I'm used to it
Told her that I don't believe in love now so I ain't used to it
I don't really trust too many people don't get used to it
If I let you in don't break my trust cause there's a fuse to it

Cause I know that I don't really feel myself no more
Cause I been on floor now they try take my heart out
I know that I don't really feel myself no more
Cause I been on floor now they try take my heart out

If you ain't 100 you can't be homie
I can't no fake people rather be at home
Please I ain't waiting on nobody
Do this on my lonely
She wan touch up on my body
Then mess with my broskis

I never trip over a girl if you really know me
Guess use disappointment how it really does be
But I'm feeling this lil and it's lowkey
Use to fumble on the boy now she wanna know me

I been on my grind like all the time now I'm used to it
Told her that I don't believe in love now so I ain't used to it
I don't really trust too many people don't get used to it
If I let you in don't break my trust cause there's a fuse to it

I been on my grind like all the time now I'm used to it
Told her that I don't believe in love now so I ain't used to it

I don't really trust too many people don't get used to it
If I let you in don't break my trust cause there's a fuse to it
