

Top Notch

Jordan Adetunji

That's me that's me top notch
That's me that's me top notch

That's me that's me we're coming through top notch
Stop lying you never gon buss shots
You man some clowns you man are some mascots
When we making movements we see how your heart stops

That's me that's me we're coming through top notch
Stop lying you never gon buss shots
You man some clowns you man are some mascots
When we making movements we see how your heart stops

We out here making chess moves might have to go and check mates
If you think acting hard is your best move
Best prove it's miscommunication in your words
That made you go and form these lies
On to my name to cause your messed view
Don't make me have to press you
Always in the press and now your mad
Cause I don't make my music to try and impress dudes
Using all my tools and I guess I've got the best screws
Don't scrutinize me cause your too average to be let through
I swear it's mad here they dread the way I'm locked in
Mind was never locked up before I had the locks in
Before I did the funk ting I was in the function
Speakers still jumping stop talking like your on tings
Sitting with a buff ting she don't like buff tings
She like her a rockstar skinny on a punk ting
Cause combustion gyal consumption
Had to tell them straight cause they can't tell me nothing

That's me that's me we're coming through top notch
Stop lying you never gon buss shots
You man some clowns you man are some mascots
When we making movements we see how your heart stops

That's me that's me we're coming through top notch
Stop lying you never gon buss shots
You man some clowns you man are some mascots
When we making movements we see how your heart stops

They envy that my names in the conversation
I don't need them man for no validation
Doing it for clout is an understatement
Them man doing it for numbers I'm on being patient
I have to rate my ting before they ever rate it
No yes men around me them man be the fakest
It's when you do the best them man a wanna take it
They never wanna see vision when you haven't made it
They just wanna they vision just to come take it
When you climbing up the ladder they just wanna shake it
They can never get my legs cause I'm up with the spaceships
They can never take my crown cause I say I'm the greatest
They can never bring down cause I love to embrace it
I just love that my skin is brown and I'm Winning they hate it
They can never bring down cause I love to embrace it

I just love that my skin is brown and I'm Winning they hate it

That's me that's me we're coming through top notch
Stop lying you never gon buss shots
You man some clowns you man are some mascots
When we making movements we see how your heart stops

That's me that's me we're coming through top notch
Stop lying you never gon buss shots
You man some clowns you man are some mascots
When we making movements we see how your heart stops
