

Drink Had Me

Jordan Davis

Hell, I was up to nothing
Just sittin' home alone
Yeah, I was gonna cash it in
About to put down my phone
And I had a message waitin'
Them boys won't let me sleep
So I told 'em I would meet 'em out
And just have one drink

But the drink had me
Callin' you up, talkin' all crazy
Talkin' 'bout us
And catchin' a ride over to your room
And keepin' your roommates up past 2
The drink had me
Wantin' one more
Wantin' to forget what we broke up for
And doin' that make up, wake up thing
I just went in there to have one drink
But the drink had me

Next morning came too early
Heart poundin' in my head
And it took me just a second
To realize I know this bed
And it ain't where I belong
But you got my T-shirt on
I blame the alcohol
No, it ain't my fault

The drink had me
Callin' you up, talkin' all crazy
Talkin' 'bout us
And catchin' a ride over to your room
And keepin' your roommates up past 2
The drink had me
Wantin' one more
Wantin' to forget what we broke up for
And doin' that make up, wake up thing
I just went in there to have one drink
But the drink had me

It never works out the way I think
I just went in there to have one drink
The drink had me, yeah
I said, the drink had me

Yeah, the drink had me
Callin' you up, talkin' all crazy
Talkin' 'bout us
And catchin' a ride over to your room
Keepin' your roommates up past 2
The drink had me
Wantin' one more
Wantin' to forget what we broke up for
And doin' that make up, wake up thing
I went in there to have one drink

But the drink had me
Yeah, the drink had, the drink had, the drink had me
Yeah, the drink had me
