

# Going 'Round

Jordan Davis

I still got your number and I wonder  
What you're doing tonight  
I heard you were hurting  
But he wasn't worth it  
Well I coulda told you he wasn't right

Well some buddies of mine  
They said you had a big fight in town  
You ran off crying  
At least that's what's going round

Know how those rumors fly  
Sometimes they're all a lie  
Burn up 'fore they hit the ground  
But right now they're going round  
I don't wanna move in too soon  
I know your heartbreak is brand new  
If I never would've let you down this  
Probably wouldn't be going round

Round and round and  
Round and round and  
Probably wouldn't be going round  
Round and round

It might've been time  
And it might've been my bad  
But I wanna try again  
Another dance, a second chance  
If you are in I'd be in

Well some buddies of mine  
They said you had a big fight in town  
You ran off crying  
At least that's what's going round

Know how those rumors fly  
Sometimes they're all a lie  
Burn up 'fore they hit the ground  
But right now they're going round  
I don't wanna move in too soon  
I know your heartbreak is brand new  
If I never would've let you down this  
Probably wouldn't be going round

Yeah some buddies of mine  
They said you had a big fight in town  
And you ran off crying  
At least that's what's going round

Know how those rumors fly  
Sometimes they're all a lie  
Burn up 'fore they hit the ground  
But right now they're going round  
I don't wanna move in too soon  
I know your heartbreak is brand new  
If I never would've let you down this

Probably wouldn't be going round  
Probably wouldn't be going round

Round and round and  
Round and round and  
Round and round
