

Good Beer

Jordan Davis

Nah, I couldn't show you round
No city outside this town
Ain't much for the cocktail crowd
I've been there and I got kicked out, huh
I ain't got no stock in Tesla
Just these six strings to impress ya, yeah
There's whole lot I don't but
I know what I know

And a good beer is a cold one
If you got green, better roll one
And the right drive is a slow one down a back road, baby, I know
That the whole town's for the home team
Better hoedown in them old jeans
And I'm damn sure that the day's done
With a good beer and a good beer is a cold one

And a good beer tastes better on a Friday night
Feels different under neon lights
Long as it's been sittin' on ice
There ain't a time that it don't hit right
If you're drinking to forget her
Or drinking to remember
Well, there's a whole lot I don't but
I know what I know

And a good beer is a cold one
If you got green, better roll one
And the right drive is a slow one down a back road, baby, I know
That the whole town's for the home team
Better hoedown in them old jeans
And I'm damn sure that the day's done
With a good beer and a good beer is a cold one

That's a good beer, baby

Yeah, if that mountain's glowing
Then I'ma crack it open

'Cause a good beer is a cold one
If you got green, better roll one
And the right drive is a slow one down a back road, baby, I know
That the whole town's for the home team
Better hoedown in them old jeans
And I'm damn sure that the day's done
With a good beer and a good beer is a cold one

Yeah, if that mountain's glowing
Then I'ma crack it open, yeah

A good beer is a cold one, oh
A good beer is a cold one
A good beer is a cold one
