

# More Than I Know

Jordan Davis

Well I know my way  
'Round a six string flat top  
Hand one over  
I can play whatever song you wanna hear  
Hand me a bottle  
And I'll go full throttle 'til that sun comes up  
And the stars hanging in the sky just disappear  
But I need help when it comes to you  
I don't know what I got into

You love like a wildfire  
Light me up like a live wire  
But I can't get enough  
You kiss like a hurricane  
Off the tracks like a runaway train  
But I think I'll try my luck  
But I'll roll the dice and play my hand  
Oh, I might lose it  
Girl, I like the way you're more than I know what to do with

What is the deal, cuss and lie  
When it comes to a girl like you  
You gotta wait too much  
Let loose and sometimes I can't believe my eyes  
The way you move and the way you dance  
I'm like sand running through your hands  
I don't know how long I got, but I'm gonna take my chance

You love like a wildfire  
Light me up like a live wire  
But I can't get enough  
You kiss like a hurricane  
Off the tracks like a runaway train  
But I think I'll try my luck  
But I'll roll the dice and play my hand  
Oh, I might lose it  
Girl, I like the way you're more than I know what to do with

Yeah, I need help when it comes to you  
I don't know what I got into  
Said, I need help when it comes to you  
I don't know what I got into

You love like a wildfire  
Light me up like a live wire  
But I can't get enough  
You kiss like a hurricane  
Off the tracks like a runaway train  
But I think I'll try my luck  
But I'll roll the dice and play my hand  
Oh, I might lose it  
Girl, I like the way you're more than I know what to do with
