

The End of the World

Jordan Haj

Things were rough for us today
We made the decisions that we made
Are you holding up?
Are you?

I called 'cause I was wondering
I called 'cause I'm not sure that I'm
Still holding up
Are you?

It got me thinking
We meet all the cool people every evening
And I see all the places that you always go to
Burning, burning

It's the end of the world, I guess
They made it into a big parade
And they didn't mention us
It's the end of the world, I guess
They made it into a big parade
And they didn't mention us in the news

Lines are down and the days are getting shorter
I'm stuck behind people who'll be taken care of later
I guess that I should have known much better

Are we gonna misstep
When the apocalypse's done for a fifteen-second glimpse
The back of my mind, I hear and it closes it in
Paris burning

It's the end of the world, I guess
They made it into a big parade
And they didn't mention us in the news
It's the end of the world, I guess
They made it into a big parade
And they didn't mention us in the news

And I see all the places that you always go to
Paris (is burning)
Burning

It's the end of the world, I guess (the end)
They made it into a big parade (the end)
And they didn't mention us in the news
It's the end of the world, I guess (the end)
They made it into a big parade (the end)
And they didn't mention us in the news
