

Under

Jordan Mackampa

There I was all alone
The white lights surround me
And noises from a phone
And suddenly, there you were, lookin' out
You are the one that I've been dreamin' about

'Cause your love has got me under and my heart is beatin' fast
Our time is almost over, now's my only chance
'Cause your love has got me under and my heart is beatin' fast
Our time is almost over, and here I go

'Cause you're vision of beauty, I'm wonderin' what it is you do
And how you spend your evenings, and if you could for two
You have plans this Friday, oh, could I take you out?
'Cause you are the one that I've been dreamin' about

'Cause your love has got me under and my heart is beatin' fast
Our time is almost over, now's my only chance
'Cause your love has got me under and my heart is beatin' fast
Our time is almost over, and here I go

Your love has got me under, your love has got me under
Your love has got me under, your love has got me under
I said that your love has got me under, your love has got me under
I said your love has got me under, your love has got me under

Your love has got me under, your love has got me under
Your love has got me under, your love has got me under
Your love has got me under, your love has got me under
Your love has got me under, your love has got me under

Your love has got me under and my heart is beatin' fast
The time is almost over, and now's my only chance
I said that your love has got me under, my heart is beatin' fast
Our time is almost over, well, here I go, here I go, here I go

Here I go, here I go, here I go
Here I go, here I go, here I go, yeah

And your love has got me under, your love has got me under
Your love has got me under, your love has got me
