

Rooftop

Jordan Rakei

I found love, we danced and gazed at the skyline
I felt within, I lost myself in it's first kiss
I found love, we held hands through the apple trees
I knew right there, I was all the [?]

I found love, we sang songs through the subways
Deeper I go, yet quicker to fall
I found love, but it's home sweet home now
Mute conversation, more time alone

I found love, has this love even found me?
Felt deep for nothing, still I'm falling for you
I found love, has this love even found me?
Felt deep for nothing, still I'm falling for you
I found love, has this love even found me?
Felt deep for nothing, still I'm falling for you

Felt deep for nothing, still I'm falling for you
Felt deep for nothing, still I'm falling for you
Felt deep for nothing, still I'm falling for you
Felt deep for nothing, still I'm falling for you
Felt deep for nothing, no...
Felt deep for nothing, no...
Felt deep for nothing, no...
