Say Something

Jordan Rakei

Say something
Say something
Say something
Say something

Say something to me, say it like you mean it
Out there thinking you deserve this
All over nothing, pain is the meaning
Out there somewhere in the distance

Way too cold outside, feels like I've been running wild
All out here for living, so we keep on biding time

Ooh, ooh, say something
Ooh, ooh, say something

Say something to me, speak up if you wanna fight it
Don't think you can't describe it (yeah)
All of your energy, leave us with the old reminder
Of what you always seem to care for

Way too cold outside, feels like I've been running wild
All out here for living, so we keep on biding time

Ooh, ooh, say something
Ooh, ooh, say something

I was sick and tired of how they used our minds
I'll press rewind, I'll never press record
I was making sure that everything's alright
It's on the line, our futures heading for
Relapse and all that, there's no way to fall back
It's too far gone, it's too far gone
Now they take our memories, it's up to us to say
It's not too far gone, it's not too hard to

Say something
Say something
Say something
Say something
Say something
Say something
Say something
Say something
Say something
