

# Speak

Jordan Rakei

I've been looking for a reason  
I've been holding on for more  
I want something to believe in  
Cause I've lived like this too long

Let the light shine down on me  
Down on me  
Oh to speak  
Salvation cries aloud for me  
She waits to see it closely  
And down by the river

Mmm all for, that place we've all been fighting on  
Await the tales of encore  
And soulful resolution

But we can't see clearly now  
I'm forcing my way out  
But we can't see clearly now  
I'm forcing my way

I've been waiting years to hold you  
But we keep on passing by  
I walk the streets in silence  
In silence, searching through the night

Let the light shine down on me  
Down on me  
Oh to speak  
Salvation cries aloud for me  
She waits to see it closely  
And down by the river

Mmm all for, that place we've all been fighting on  
Await the tales of encore  
And soulful resolution

But we can't see clearly now  
I'm forcing my way out  
But we can't see clearly now  
I'm forcing my way out  
But we can't see clearly now  
I'm forcing my way out  
But we can't see clearly now  
I'm forcing my way, forcing my way

I'm trying to find the words to say  
To send me on my way to you

Oh to speak  
Salvation cries aloud for me  
She waits to see it closely  
And down by the river

Mmm all for, that place we've all been fighting on  
Await the tales of encore  
And soulful resolution

But we can't see clearly now  
I'm forcing my way out  
But we can't see clearly now  
I'm forcing my way out  
But we can't see clearly now  
I'm forcing my way out  
But we can't see clearly now  
I'm forcing my way

Oh, we can't see clearly now  
I'm forcing my way out  
But we can't see clearly now  
I'm forcing my way
