

## Still (Interlude)

Jordan Rakei

You and I collide  
No, not you, necessarily so but your soul  
You and I can dream  
But my dreams are more vivid, be still with no limitations  
You and I are one  
But your ego says no, there's no room to fight  
You and I are here  
But you're not taking over  
Rapture, let it simmer  
Rapture, let it simmer

As the bliss comes, as the thoughts slide under  
Focus in 'em once, please take me under  
Reminisce once, appreciate the darkness  
I'm at peace now  
As the bliss comes, as the thoughts slide under  
Focus in 'em once, please take me under  
Reminisce once, appreciate the darkness  
I'm at peace now
