

Virtual U

Jordan Rakei

You've been trying to keep us away from the light
And you sold us fast
We've been trying to keep us away from that side
And we sold us fast
To a virtual sea
When we are together
All this virtual feel
When we are apart
When we are together
When we are together
When we are apart
You've been trying to keep us away from the light
And you sold us fast
We've been trying to keep us away from that side
And we sold us fast
I can let it go
But, lady, don't go
All I ever wanted was
Some discreet love
I can let it go
But, lady, don't go
All I ever wanted was
Some discreet love
I can let it go
But, lady, don't go
All I ever wanted was
Some discreet love
