Wind Parade

Jordan Rakei

Life is so improving
Life is so improving
Life is so improving
Life is so improving

Lullabies of winds stiff by the moon
Caught a glimpse of all I never knew

Just holding you can see it
Mother Nature's speaking her soul to me
Found out the ways to believe in
It's what she's saying that's a mystery

I just wanna live this life forever
I just wanna live this life forever
I just wanna live this life forever
(Ever)
I just wanna live this life forever
Will you have this mystery forever?

The wind blew away
(The wind blew away)
All the wind through her hair
The wind blew away
The wind blew away

I never thought I'd find myself in you
But praying till that sun rise in you

I just wanna live this life forever
Will you have this mystery forever?

The wind blew away
(The wind blew away)
All the wind through her hair
(The wind blew away)
(The wind blew away)
