

# A Way For Us

Jordan St. Cyr

Looking back it was easier out on my own  
Just me, my guitar and that wide open road  
Waiting on the world to change  
On the radio

God must've been listening, I didn't wait long  
Got married, had 4 kids, now we're leaving home  
Packed it up to chase dad's dream  
Moving down to Tennessee

Down from the mountains to valleys we go  
Hills into canyons where wild rivers flow  
How we will get through's beyond our control  
But this one thing I trust, I know

God will make a way for us  
God will make a way for us  
A way For us

Old neighbors for new ones that we barely knew  
Each one of our kids was the new kid at school  
Our youngest in the hospital  
How's it even possible

Down from the mountains to valleys we go  
Hills into canyons where wild rivers flow  
How we will get through's beyond our control  
But this one thing I trust, I know

God will make a way for us  
God will make a way for us  
I know He'll be watching over us  
God will make a way for us

Nothing could keep us apart  
There's no road too broken  
No distance too far  
Nothing could come in between  
This one thing I trust, I know

God will make a way for us  
God will make a way for us  
I know He'll be watching over us  
God will make a way for us

God will make a way for us  
God will make a way for us  
I know He'll be watching over us  
God will make a way for us  
A way for us
