

God Did A Good Thing

Jordan St. Cyr

It's a good thing
I'm not the one writing this story
Cause I can't see where this is going
But I know he does

It's a hard thing
When all I can feel is I'm hurting
But if pain is a place where he's working
Right now that's enough

Every break in my heart
Every tear that I cry
Will turn to redemption
In his perfect time
Someday I'll look back
On the story of me
And this is the song I will sing
God did a good thing
God did a good thing

It's a good thing
That yea, though I walk through the valley
I know the one walking beside me
Will lead me through

Every break in my heart
Every tear that I cry
Will turn to redemption
In his perfect time
Someday I'll look back
On the story of me
And this is the song I will sing
God did a good thing
God did a good thing

There's nothing impossible my God can't do
There's nothing I'm facing he won't bring me through
Works all things for good, like only he could
And I know my God's gonna use

Every break in my heart
Every tear that I cry
Will turn to redemption
In his perfect time
Someday I'll look back
On the story of me
And this is the song I will sing
Oh, this is the song I will sing
God did a good thing
God did a good thing
God did a good thing
God did a good thing

It's a good thing
I'm not the one writing my story
