

# Something Greater

Jordan St. Cyr

Fear, is that you at the door again  
Doing your best to get back in  
Hoping I'll listen like I used to  
And it's true, you got inside my head  
But now things are different  
Yeah, and I don't need you

I've got something greater  
The good grace of my savior  
A friendship with my maker  
What more could I need  
I've seen the love this world can offer  
But there's no love like my father's  
Feels good  
That I've got something greater

I know that pain, pain is a part of life  
It sure is a part of mine but I know  
Help is on the way  
He gives me joy, joy that I can't explain  
Yeah His joy is my strength  
So why would I be afraid

I've got something greater  
The good grace of my savior  
A friendship with my maker  
What more could I need  
I've seen the love this world can offer  
But there's no love like my father's  
Feels good  
That I've got something greater

So no matter the storm or the tragedy  
I know that my God is still here  
If I'm right on the edge of catastrophe, I believe  
I don't need to be walking in fear

I've got something greater  
The good grace of my savior  
A friendship with my maker  
What more could I need

I've got something greater  
The good grace of my savior  
A friendship with my maker  
What more could I need  
I've seen the love this world can offer  
But there's no love like my father's  
Feels good  
That I've got something greater

I've got something so much greater  
Got that good grace from my Savior  
I got something, I got something greater  
I've got something so much greater  
Got that good grace from my Savior  
I got something, I got something greater
