

Away With Me

Jordan Sweeto

The second I let you in, I know
This is how it's gonna go
And I've never been happier

And you're like, the only girl I know
Who ditched the thought to let me go
Pull me aside and really want to show me

And I promise I'll never go

Oh, baby won't you run away with me?
Let's leave this all and let it be
I don't want anyone but you, oh
So don't ever doubt cause baby
We'll make it through
Cause I don't want anyone but you

Your eyes, they sing to me
You glow, so brightly
I've never known someone
Just as amazing as you baby

You're sweet, so adorable
You're everything to me girl
Let's do it again
This feelings never getting old

And I promise I'll never go, woahhh

Oh, baby won't you run away with me?
Let's leave this all and let it be
I don't want anyone but you, oh
So don't ever doubt cause baby
We'll make it through
Cause I don't want anyone but you

I don't want anyone but you...
