

# Fright Tonight

Jordan Sweeto

Out here I'm lost in a strange new light  
And your ghost is stalking me, it's mocking me tonight  
And I'm feeling something I can't ignore  
I can't think straight why am I trying anymore?

You are all I'm missing, caught off guard  
Me and you, is it really that hard?

Bite me baby, set my world alight with feeling  
You're stealing everything I've ever held dear to me  
So take me, take me  
Just, just don't wake me

Bite me baby, see your world ignite with feeling  
You're concealing everything I've ever held dear to me  
So bite me, bite me  
Be my fright tonight

I should set out for the morning light  
But I know you're out there waiting somewhere out of sight  
And I'm feeling something I can't ignore  
It's getting colder but I've felt like this before

You are all I'm missing, caught off guard  
Me and you, is it really that hard?

Bite me baby, set my world alight with feeling  
You're stealing everything I've ever held dear to me  
So take me, take me  
Just, just don't wake me

Bite me baby, see your world ignite with feeling  
You're concealing everything I've ever held dear to me  
So bite me, bite me  
Be my fright tonight

And we'll escape through an open door  
I need you now like I never have before  
The day is old and it's moving on  
But I don't care cause I'm too far gone

You are all I'm missing, caught off guard  
Me and you, is it really that hard?

Bite me baby, set my world alight with feeling  
You're stealing everything I've ever held dear to me  
So take me, take me  
Just, just don't wake me

Bite me baby, see your world ignite with feeling  
You're concealing everything I've ever held dear to me  
So bite me, bite me  
Be my fright tonight

Out here I'm lost in a strange new light  
Out here I'm lost in a strange new light  
Out here I'm lost in a strange new light

I'm here, I'm losing myself  
So bite me, bite me  
Be my fright tonight
